Technical Skills

Programming Languages:	C++, Javascript
Frontend:	React.js, HTML, CSS, Tailwind CSS, Zustand
Backend:	Node.js, Express.js, REST APIs, JWT Authentication, Socket.IO
Databases:	MongoDB, MySQL, PostgreSQL
Tools:	Git, GitHub, Postman, Vercel, Render, MongoDB Atlas, Cloudinary
CS Fundamentals:	Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks

Experience

Frontend Developer Intern

Daten & Wissen Pvt. Ltd., Bhayandar (W), Mumbai

June 2026 – Present

- Built a full-stack Custom API Configuration module (Node.js/Express, React) supporting REST, SOAP, and GraphQL protocols with two-way token authentication; validated end-to-end via a self-built test server.
- Designed a CRUD-based Admin Panel (Groups, Consumers, Permissions) exposing internal APIs to external consumers, with credential encryption backed by an **LRU cache** to avoid redundant decryption.
- Built Scheduling and Dashboard screens for an Attendance app — schedule validation, conflict detection, skip-day logic, **6+ integrated GET endpoints** with infinite-scroll pagination, and a corrected attendance-rate calculation.

Projects

OrgFlow | MERN, JWT, Socket.IO, Zustand | [GitHub](#) | [Live Demo](#)

- Built a full-stack task management platform to centralize fragmented team collaboration, unifying task assignment, file attachments, and chat into one dashboard for Managers and Employees.
- Designed **20+ REST APIs** and **4 MongoDB collections** with **JWT (httpOnly cookies)** securing **25** of them across **2 role-based access levels** enforced via Express middleware.
- Implemented **real-time Socket.IO chat** with online presence tracking and inline task-reference linking, managing auth and conversation state via **Zustand** stores across **15+ React components**.

BrightBuilds | React.js, Express.js, MongoDB, JWT | [GitHub](#) | [Live Demo](#)

- Built a project showcase platform to help students map academic projects to the **UN's 17 Sustainable Development Goals** and receive structured faculty/admin feedback.
- Designed **25+ REST APIs** and **4 MongoDB models** supporting **4 role types** (Student, Faculty, Admin, Public), with **JWT + Bcrypt** authentication and **Cloudinary** media uploads.
- Built a gamified leaderboard using pre-calculated average ratings for fast reads, an **SDG-tracking analytics dashboard**, and threaded comments with nested reply subdocuments.

Education

- **Fr. Conceicao Rodrigues College of Engineering**, Mumbai – B.E. Computer Engineering, **CGPA: 9.22** 2023–Present
- **Vidyavardhini's Annasaheb Vartak College**, Mumbai – HSC, **80.67%** 2021–2023
- **St. Joseph English School**, Mumbai – SSC, **97.20%** 2011–2021

Achievements

- **1st Place – Tech-Mania 2K25**, L.S. Raheja College Feb 2025
- **1st Runner-Up – Oscillation Hackathon**, Ashwamedh 2025 (VPPCOEVA) Apr 2025
- **Dual Track Winner – CODESTORM Hack 2025 | GLOBAL (FIU)** May 2025
